B. Providers

B1. Key terms

This section explains key terms you'll see in our *Provider and Pharmacy Directory*.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, long-term services and supports (LTSS), supplies, prescription drugs, equipment and other services.
 - The term providers also includes facilities such as hospitals, clinics, and other places that provide health care services, medical equipment, and long-term services and supports.
 - Providers that are a part of our plan's network are called network providers.
- **Network Providers** are the providers that have contracted with us to provide services to Members in our plan. The providers in our network generally bill us directly for care they give you. When you see a network provider, you usually pay nothing for covered services. However, if you receive or become eligible for LTSS, you may have to pay part of the cost of these services. This amount is determined by Rhode Island Medicaid.
- A **Primary Care Provider (PCP)** is a provider who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time.
- **Specialists** are doctors who provide health care services for a specific disease or part of the body. There are many kinds of specialists. Here are a few examples:
 - Oncologists care for patients with cancer.
 - Cardiologists care for patients with heart conditions.
 - Orthopedists care for patients with certain bone, joint, or muscle conditions.
- You also have access to a care manager that you choose.
 - A **Care Manager** helps you manage your health care providers and services.
 - Your **Care Team** works together to make sure your care is coordinated. This means that they make sure tests and labs are done once and the results are shared with the appropriate providers. It also means that your PCP should know all medicines you take so that he or she can reduce any negative effects. Your PCP will always get your permission before sharing your medical information with other providers.

B2. Primary Care Provider (PCP)

You can get services from any provider who is in our network and accepting new Members.

First, you will need to choose a Primary Care Provider. Call Member Services at 1-844-812-6896 (TTY/TDD 711) to help with this request.

To choose a PCP, go to the list of providers on page 7 and choose a Provider:

- that you use now, **or**
- who has been recommended by someone you trust, **or**
- whose offices are easy for you to get to.
- If you want help in choosing a PCP, please call Member Services at 1-844-812-6896 (TTY/TDD: 711). The call is free. Or, visit www.nhpri.org/INTEGRITY.
- If you have questions about whether we will pay for any health care service or care that you want or need, call Member Services and ask **before** you get the service or care.

B3. Long-term services and supports (LTSS)

As a Neighborhood INTEGRITY Member, you may be able to get long-term services and supports (LTSS), such as nursing facility care, home health aide services, and personal care services. LTSS help people who need assistance to do everyday tasks like taking a bath, getting dressed, making food, and taking medicine. Most of these services are provided at your home or in your community but could be provided in a nursing home or hospital.

For more information about long-term services and supports, contact Member Services at 1-844-812-6896 (TTY/TDD 711), 8 am to 8 pm, Monday Friday; 8 am to 12 pm on Saturday. On Saturday afternoons, Sundays and federal holidays, you may be asked to leave a message. Your call will be returned within the next business day.

B4. How to identify providers in Neighborhood INTEGRITY's network

You must get all of your covered services from providers within our network. If you go to providers who are not in Neighborhood INTEGRITY's network (without prior authorization or approval from us), you will have to pay the bill.

A **prior authorization** is an approval from Neighborhood INTEGRITY before you can get a specific service, drug, or see an out-of-network provider. Neighborhood INTEGRITY may not cover the service or drug if you don't get approval.

The exceptions to this rule are when you need urgent or emergency care or dialysis and cannot get to a provider in the plan, such as when you are away from home. You can also go outside the plan for other non-emergency services if Neighborhood INTEGRITY gives you permission first.

If you have questions, please call Neighborhood INTEGRITY at 1-844-812-6896 (TTY/TDD 711), 8 am to 8 pm, Monday Friday; 8 am to 12 pm on Saturday. The call is free. **For more information**, visit www.nhpri.org/INTEGRITY.

- You may change providers within the network at any time during the year. If you have been going to one network provider, you do not have to keep going to that same provider.
- Neighborhood INTEGRITY works with all the providers in our network to accommodate the needs of people with disabilities. As applicable, the list of network providers in this Directory includes information about the accommodations they provide.
- If you need to see a provider and are not sure if they offer the accommodations you need, Neighborhood INTEGRITY can help you. Talk to your care manager for assistance.

B5. How to find Neighborhood INTEGRITY providers in your area

To find a network provider near you, first locate the city and then locate the provider specialty. The cities are in alphabetical order and the provider specialties are too. If you need additional assistance or information, contact Member Services at 1-844-812-6896 (TTY 711).

B6. List of network providers

This Directory of Neighborhood INTEGRITY's network providers contains:

- **Health care professionals** including primary care physicians, specialists, and behavioral health providers;
- **Facilities** including hospitals, nursing facilities, mental health facilities, and skilled nursing facilities; and
- **Support providers** including adult day services, assisted living, consumer-directed services, home-delivered meals, home health agencies, and private duty nursing.

Providers are listed in alphabetical order by last name. In addition to contact information, provider listings also include specialties and skills, for example, such as languages spoken or completion of cultural competence training.

Cultural competence training is additional instruction for our health care providers that helps them better understand your background, values, and beliefs to adapt services to meet your social, cultural, and language needs.
